	In route aerodromes
	Off route aerodromes
	VFR routes and significant points
	Prohibited Area
	CTR
	ATZ
	Dropping zones (see ENR 5)
	Overflying interdiction (see ENR 5)

* REMARKS:

- Turn shall be executed within 2 NM SOUTH of RWY extended centerline
- Due to TWR partial limitation of visibility, caused by opposite building:
 - a) ATS provision not assured within 13° splay sector originated at TWR from bearing 051° to bearing 064°
 - b) unless otherwise instructed by ATC, all VFR traffic using RWY 08 for operations and intending to proceed northbound, shall fly RWY heading till reaching or passing 1000 FT climbing before executing a left turn to join VFR exit route.

GENERAL REMARK: Reported altitudes in VFR routes are the maximum usable
